

Nasser Mohammed Alzaid

Al Khobar, SA | +966559933073 | Nasermz.0110@gmail.com | www.linkedin.com/in/nasser-alzaid-7b6886212/

SUMMARY

Artificial Intelligence graduate with hands-on experience in Machine Learning algorithms, Deep Learning (CNN), Computer Vision, Natural Language Processing (NLP), and Backend Development. Proficient in Python scripting with a focus on building intelligent and scalable solutions.

EXPERIENCE

AWSCloudClub IAU | Dammam, SA

Head of Development Unit | November 2024 – February 2025

- Led the development and deployment of AI-driven and cloud-native solutions within the AWS Cloud Club.
- Worked on multiple projects utilizing AWS tools and services.
- Developed websites hosted on AWS Cloud infrastructure.
- Conducted technical workshops to enhance members’ skills in cloud and AI technologies.
- Built an AI-powered chatbot using AWS services.
- Selected as a public speaker and project contributor for AWS Cloud Club community events.

COOP Training at IAU | Dammam, SA

Backend Developer, Machine Learning Trainer, Web Page designer | June 2024 – August 2024

- Developed and optimized machine learning models (Naive Bayes, Logistic Regression, Decision Trees, XGBoost) for HR prediction and bankruptcy detection.
- Performed data cleaning, feature selection, and visualization using Pandas, NumPy, Matplotlib, and Seaborn.
- Deployed trained models into Django-based web applications with real-time prediction functionality.
- Built responsive frontends using HTML, CSS, and JavaScript; managed backend logic and server configuration.
- Continuously evaluated model performance using metrics such as accuracy, precision, recall, and F1 score.
- Authored and published a research paper on the integration of machine learning models in web applications.
- Overcame challenges in data integration, model tuning, and system deployment through hands-on experimentation.

EDUCATION

Imam Abdulrahman Bin Faisal University | Dammam, SA

Bachelor’s degree in Artificial Intelligent.

- Achieved 3rd place for best graduation project: “QA AI Testing Agent”, an intelligent agent that automates software testing using artificial intelligence techniques.

OTHER

- **Projects:**
 - **AWS AI Chatbot**
AWS Bedrock, Node.js, Vanilla JavaScript, HTML/CSS, Express, dotenv, CORS
Developed and deployed a chatbot using Bedrock's foundation models, built on a full-stack environment with secure API integration.
 - **AWS AI Storyteller**
Python, Flask, Boto3, dotenv, HTML/CSS/JavaScript
Built a web app that generates AI-driven stories using AWS services; implemented a Flask backend and interactive frontend.
 - **Jarvis AI Assistant**
Python, ElevenLabs API, LLMs, dotenv
Developed a personal voice-enabled assistant integrating Eleven Labs voice agent and LLM for conversational interaction.
 - **Friday AI Assistant**
Python, LiveKit Agent, LLMs, dotenv
Created an AI assistant using LiveKit and large language models with real-time communication capabilities.
 - **ML-HR Prediction System**
Python, Django, Scikit-learn, HTML/CSS/JavaScript
Collaboratively built and deployed machine learning models to predict HR hiring outcomes based on real-world datasets.
- **Achievements:**
 - 3rd place for best graduation project: “QA AI Testing Agent”, an intelligent agent that automates software testing using artificial intelligence techniques.
- **Technical Skills:**
 - Proficient in Python and Git
 - Machine Learning (scikit-learn)
 - Deep Learning (PyTorch)
 - GenAI
 - Front-end development (HTML,CSS,and JavaScript)
 - Computer Vision.
 - Natural Language Processing (NLP)
 - AWS Cloud (Amazon Bedrock, Amazon Polly)
- **Soft Skills:**
 - Communication.
 - Problem-Solving.
 - Analytical Thinking.
 - Time-Management.
 - Flexibility and Adaptability.
 - Collaboration and Teamwork.
- **Languages:** Arabic, English.
